

## **DNA Theta Healing Advanced Course Training**

The advanced Theta healing course expands the information in the basic class to encompass an in depth understanding of the seven planes of existence that surround us. This class is a delightful experience as students are filled with many new and positive feelings such as knowing how to live in the now and what self acceptance feels like from the seven plane.

The student will learn how to clear old resentments, vows, and commitments that hold them back. The student will discover how to heal with the 'baby in the womb' and heal the 'broken soul' exercises. The student will receive feelings that are downloaded from the instructor that will bring profound healing and enlightenment to them.
